# PROMOTE GLOBAL WORMING

## V-BED

Saveer has found solution to ease your year around vermicompositing needs by providing ready to use structure which is :

- ▶▶ Light weight
- ▶▶ Durable
- ▶▶ Economical
- ▶▶ Reusable
- ▶▶ Easily available
- ▶▶ Easy to Manage
- ▶▶ With good esthetic feel
- ▶▶ Does not rot
- ▶▶ Maintains moisture and Temperature etc.

### FEATURES

UV stabilized high density polyethylene sheets are used to ensure quality and durability.

The structure is stichless to avoid leakage.

Proper ventilation through net windows.

The design and structure ensures proper humidity and temperature for survival of vermiculture.

Suitable arrangement for collection of vermiwash. This has antifungal properties and can be sprayed on crops.

Economically viable and can be used over years if handled properly.

The design and structure is unique and produces vermicompost, vermiwash & vermiculture.

WE HAVE SPECIALLY DESIGNED V-BED FOR MAXIMUM MANURE AVAILABILITY, DURABILITY AND QUALITY PRODUCTIVITY.

Saveer's V-Beds requires less space and are available in different sizes\*.

<u>CODE</u>	<u>SIZES</u>	<u>UNIT PRICE</u> *
• 00956217	4' x 4' x 2'	Rs. 2,394.00
• 00956218	8' x 4' x 2'	Rs. 3,582.00
• 00956219	12' x 4' x 2'	Rs. 4,101.00

\* Other sizes are also available

## CAPACITY
