# VEGGIESTAR

BIOTIC SOLUTION TOWARDS  
RAPID URBANIZATION

- **Healthy and Safe Food for your Healthy Life**

Grows only in R.O water .... No Soil which means... no soil borne diseases

- **No more doubts about the quality of vegetables**

Fresh, Crisp, Hygiene and completely chemical free produce.

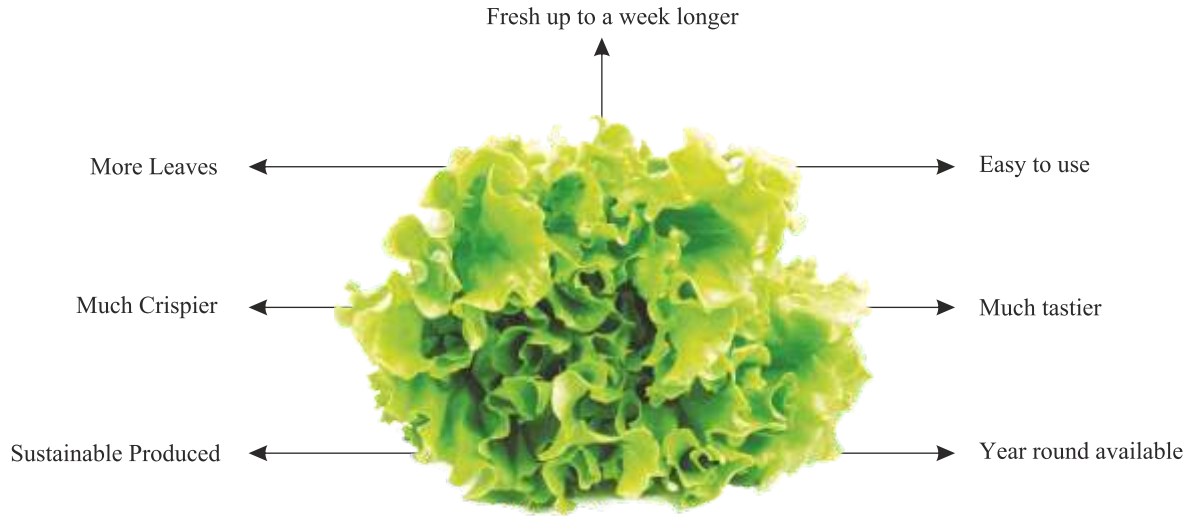

- **No more waiting for any season to eat your favorite Vegetables**

You can grow vegetables all-round the year .Complete climate control to bring any season climate into the system as required by the plants.

- **Ready to consume in very short duration once planted.**

Plants grown in VeggieStar grows quickly compared to plants grown in soil because of liquid nutrients supplied in sufficient quantity directly through RO water.

## Hand Picked Greens

- **Just switch on the VeggieStar ...Everything is automatic... Sit & Enjoy Fresh Food**

No Farming Knowledge is required. No Nutrient knowledge is required.

- **Customize the size as per your needs and space availability**

Flexibility in choosing the VeggieStar size as per your requirement and space availability.

- **Not just a product ...It energizes the ambience at your place with its vibrant look and design**

Attractive design and lights which throws away stress in your life with its elegant look.

- **It's just a onetime investment for life time consumption of fresh and healthy vegetables.**

The complete product cost becomes zero in just 3 years because of its production.
